

Naresh V

Machine Learning Engineer

Aspiring ML Engineer driven by a profound curiosity for exploring the limitless potential of data. Passionate about leveraging machine learning and AI to extract meaningful insights, solve complex problems, and push the boundaries of what data can achieve. Skilled in crafting innovative solutions through real-world projects, internships, and continuous learning in cutting-edge technologies

EDUCATION

Bachelor Of Engineering

KPR Institute of Engineering and Technology

07/2023 - 08/2025

Coimbatore, India

Courses

- **Major:** Computer science
- **CGPA :** 8.28

WORK EXPERIENCE

Research Assistant

National Institute of Technology (NIT)

06/2025 - 08/2025

Trichy

Achievements/Tasks

- Currently working on a research project focused on Insect Contamination Detection. Conducting research involving problem formulation, literature review, data handling, and solution implementation under expert guidance.

Data Analyst Intern

Fourth Dimension Advisory Company

01/2025 - 02/2025

Mylapore, Chennai

Achievements/Tasks

- Completed a data visualization internship, gaining hands-on experience in developing interactive dashboards and converting complex datasets into meaningful visual insights.
- **Tech Stack:** Power BI, Excel, Streamlit, Python.

Machine Learning Internship

Kyungpook National University

04/2023 - 05/2023

South Korea (Remote)

Achievements/Tasks

- Completed a Machine Learning Internship under KNU, South Korea, focused on Artificial Intelligence (AI), Machine Learning (ML), and Deep Learning (DL) fundamentals.
- Implemented key ML workflows including data preprocessing, model training, and evaluation.
- **Tech Stack:** TensorFlow, Pandas, NumPy, Ultralytics.

CERTIFICATIONS

Machine Learning Specialization (11/2023 - 01/2024)

Completed the Machine Learning Specialization by DeepLearning.ai, mastering core ML algorithms, model optimization, and practical implementation using Python-based libraries.

Kaggle Courses (06/2023 - 02/2024)

Intro to Programming, Intro to Machine Learning and Pandas

GDG's Devfest (10/2023 - 11/2023)

Learned Streamlit for UI, RAG using langchain, LLM using vertex palm models.

SKILLS

Python

Java

Machine Learning

Data science

Computer Vision

Deep Learning

PERSONAL PROJECTS

PII Detection and Encryption for Secure Data Handling (09/2024 - 10/2024)

- Developed an AI-driven system for adaptive PII detection and encryption across text and image data, ensuring privacy compliance and scalability.
- **Tech Stack:** TensorFlow, OpenCV, Python, Cryptography Libraries, and Deployment Tools

Real-Time Fall Detection System for Elderly Patients Using Monocular Cameras (10/2024 - 11/2024)

- Developed a real-time fall detection system for elderly care, achieving 96% accuracy using monocular cameras and ML-based motion analysis with OpenCV and TensorFlow.
- **Tech Stack:** MediaPipe, TensorFlow, Streamlit, Computer Vision

Disaster Relief Through Drone-Assisted Victim Identification (12/2024 - 02/2025)

- Developed a drone-based disaster relief system using AI for real-time victim identification and efficient rescue operations.
- **Tech Stack:** Tensorflow, OpenCV, Image Processing Libraries

ACHIEVEMENTS

Brilliant Bharath Hackathon (03/2025 - 03/2025)

Participated in the Brilliant Bharath Hackathon conducted by Arivial Sangam and won **3rd prize**.

KPR - Ignitron Trophy (09/2024 - 09/2024)

Participated in Ignitron trophy that was held at KPR and won **1st prize** in Hackathon.

IEEE - Ideatronic (05/2025 - 05/2025)

Participated in the Paper Presentation event conducted by IEEE at KPRIET and won **3rd prize**.

LANGUAGES

Tamil

Native or Bilingual Proficiency

English

Full Professional Proficiency

TECH STACK

Tensorflow

Keras

Ollama

Pandas

Numpy

Scikit-Learn

MediaPipe

PyTorch
